

Heavy Commercial & Industrial

For over ten years, ARC has had an annually renewable contract with a loyal client to provide construction management services on nearly \$1 billion of new manufacturing and support facilities. ARC is the only vendor at this client's Colorado location to have its contract renewed each and every year over the last ten years. The facilities are designed to manufacture products which are held to the highest quality standards in the world, and require rigorous procedures and processes to manage on a daily basis.

Representative Projects

New Manufacturing Facility
Expansion to Manufacturing Facility
New R&D Facility
Expansion to Manufacturing Facility
Master Site Development
New Central Utilities Plant
New Construction
New Administration Building

Unique Challenges

- Complex business drivers create intense pressure to perform on time and under budget
- Coordination of work with continuous production cycles - facilities generate large volumes of product 24 hours a day, 7 days a week, and are commonly known to generate six figure profits on a daily basis
- Large, extremely complex projects, with diverse and demanding teams
